

10-WEEK WORK PLAN – ESCAPE ROOM PUZZLE GAME

Week 1: Project Planning and Research

Objectives:

- Define the game concept and storyline.
- Research escape room games and puzzle mechanics.
- Finalize the game theme and objectives.

Week 2: Requirement Analysis

Focus:

- Identify game features and functionalities.
- Define player objectives and win conditions.
- Design overall game architecture.

Week 3: Project Setup

Setup:

- Set up Java development environment.
- Create project structure and classes.
- Prepare game assets and resources.

Week 4: Room Design and Navigation

Core Implementation:

- Create different rooms and locations.
- Implement player movement between rooms.
- Add room descriptions and interactions.

Week 5: Puzzle Implementation

Puzzle Development:

- Create logic-based puzzles and riddles.
- Add hidden clues and interactive objects.
- Implement puzzle-solving mechanisms.

Week 6: Inventory System

Feature Development:

- Allow players to collect items.
- Implement inventory management.
- Enable item usage for solving puzzles.

Week 7: Game Logic and Progression

Game Mechanics:

- Track player progress.
- Unlock new rooms after puzzle completion.
- Add game-over and victory conditions.

Week 8: User Interface Enhancement

Visual Improvements:

- Design menus and game screens.
- Improve user interaction.
- Add sound effects and visual feedback.

Week 9: Integration and Testing

System Integration:

- Combine all modules and features.
- Test puzzles and game flow.
- Fix bugs and improve performance.

Week 10: Finalization and Documentation

Project Completion:

- Optimize gameplay experience.
- Prepare README and documentation.
- Final testing and project submission.

Summary

This 10-week work plan outlines a structured approach to the Escape Room Puzzle Game project. The project begins with planning and research, followed by room design, puzzle development, inventory implementation, game logic, testing, and final documentation. Each phase contributes to building an engaging and interactive escape room gaming experience.
